

THE RESICA FALLS GEOCOURSE

Remember to always follow basic geocaching etiquette:

- Always hide a cache exactly as you found it. If you moved rocks or other objects to reach a cache, replace them before leaving.
- Feel free to take a trinket from the cache for your collection, but also leave another object of similar value in its place for others to collect.

Some tips before starting:

- If your GPS has multiple coordinate modes, be sure it is set to the hddd°mm.mmm' mode before inputting these coordinates.
- Remember to hike along unimproved roads and trails for easiest access.
- The ★-rating indicates difficulty of finding the cache from easiest (★) to hardest (★★★). This rating is based on the terrain and number of potential hiding spots in the area.
